Tutorial Objectives:
- to review the purpose of the phases in the SDLC
- to develop group and presentation skills

Tutorial Task:
Your tutor will allocate one or more phases in the SDLC to your group. Your group has to prepare a presentation (your tutor will give you the necessary resources) for your allocated phase(s) based on the following:
1. Why is the phase important to successful systems development?
2. What are the main activities in the phase?
3. What information does the phase need or provide to other phases?
4. Who in the project team should be involved in this activity?
   The project team consists of:
   - Project Manager, Systems Analysts, Analyst Programmers, Programmers,
   - User Manager/Sponsor, Steering Committee, User Representative, Users,
   - Hardware/Software Vendors, Maintenance Staff, Auditor,
   - Technical Support Staff.
5. What skills and knowledge are needed to carry out the activities in the phase.

Presentation:
Each member of the group should participate in a 10 minute group presentation of their discussion results.
